

## Web Artisan for Growing Agency

**Location** – City Centre, Norwich

**Type** – Permanent

**Salary** – Negotiable

**Start** – ASAP

Are you a passionate web artisan looking to take the next step in a growing digital agency? fluffyegg are a forward-thinking agency offering web design/development, graphic design and SEO. We do serious work but don't take ourselves too seriously. We are a friendly, close-knit team servicing small start-ups to multimillion pound companies. The work is diverse and client-facing. The successful candidate will be comfortable working as part of a small team and playing an active role in all aspects of project development.

Your role will be to bring web design visuals to life and to offer critical feedback and ideas to the designers. You will be as comfortable coding a complex bespoke web app as you are developing a responsive WordPress website.

### Skills

- Excellent knowledge of WordPress, PHP and MySQL
- Good knowledge of HTML5, CSS and JavaScript/JQuery
- Keen eye for bringing design concepts to life
- Comfortable administering domains and email accounts
- Stickler for beautiful code and thirst for self-development
- Able to meet deadlines with great client-facing skills
- Passionate about customer service
- Excellent problem-solving skills
- Experience with a PHP framework such as Laravel preferred
- Basic SEO knowledge preferred

### Benefits

- High-end company laptop
- Professional development
- Great working environment and autonomy over your work
- Generous holiday entitlement
- Regular pay review

- Annual bonus scheme

Applications will close when the right candidate has been found. Please send your CV, portfolio and salary expectation to [careers@fluffyegg.com](mailto:careers@fluffyegg.com). No recruitment agencies please.

Please note that due to high volume of candidates, we will only reply to those successful in their application.
